NFAC OPENING ON FEDERAL WOMEN'S PROGRAM BOARD

The Federal Women's Program Board, established in April 1975 by direction of the CIA Management Committee to enhance the status of women in the Agency, is responsible for examining the careers of women in the Agency and for making recommendations for improvement to the Director of Central Intelligence. The Board is composed of three representatives from each Directorate who serve a term of two years.

There are two openings, one clerical and one professional, for a representative from NFAC to the Agency's Federal Women's Program Board. Interested applicants, men and women, should have a genuine interest in promoting equality of opportunity for women and be willing to devote a certain amount of working and personal time to Board activities. Please contact NFAC representatives,
